Ashley Norton's Signature Classic Leverset Collection has five new styles, including the Colonial lever in White Medium. (Ashley Norton)

Ashley Norton has expanded its collection of architectural hardware with five new lever styles. Joining the company's Signature Classic Leverset Collection are the traditional Edward, classic Colonial, transitional Cara, sleek Alessa and curvy Joan. The ergonomic new styles are available as individual levers or as leversets for interior or exterior use.

The new levers run the style gamut from traditional and transitional to contemporary. The range makes it easy to add Ashley Norton's solid bronze and solid brass architectural hardware to any style of decor. The Edward lever, available in solid bronze, has a traditional flair with fine details that hint of its classic past. The Colonial lever, available in solid bronze or solid brass, has refined details. The Cara lever, available in solid bronze, blends sleek metal with a hint of ornamentation. The Alessa lever, available in both solid brass and solid bronze, combines curves and edges into a modern and minimal design. And the Joan lever, available in solid bronze, is a fluid silhouette that emphasizes curves.

All Ashley Norton levers are forged from brass or bronze. Brass levers are available in nine finishes: Satin Nickel, Polished Chrome, Dark Oil Rubbed, Flat Black, Polished Nickel, Satin Chrome, Satin Brass, Polished Brass and Unlacquered Brass. Bronze levers are available in five patina options: Dark Bronze, Matt Black, White Bronze, White Medium and Natural Bronze.

Designers can mix and match any Ashley Norton lever, with any backplate or rose for a personalized look.
