Ashley Norton adds hammered finish

WOODSHOP NEWS EDITORS • JUN 20, 2023

Ashley Norton introduces a new hammered finish to its line of architectural hardware. Hand-forged by skilled artisans, each piece features unique hammer marks for a rustic, relaxed feel, according to the manufacturer.

“Our artisans use traditional blacksmith techniques to add each and every little dent and divot,” Ashish Karnani, vice president of Ashley Norton, said in a statement. “The hammered finish offers a bespoke feel that makes both a visual and tactile statement.”

The hammered finish is available for an array of Ashley Norton hardware, including edge pulls, cabinet pulls, and cabinet knobs.
